WARRANTY

Mattamy Warranty backed by TARION "Excellent Service Rating" includes that the home is free from defects in workmanship and materials for One (1) Year.
Two Year Warranty Protection:
The home is free from defects in workmanship and materials including caulking, windows and doors so that the building prevents water penetration. Defects in workmanship and materials in the electrical, plumbing, heating delivery and distribution systems – Defects in workmanship and materials which result in the detachment, displacement or deterioration of exterior cladding, leaving to detachment or serious deterioration.
Violations of the Ontario Building Code's Health and Safety provisions.
Seven Year Warranty Protection (Major Structural Defects):
A major structural defect is defined by TARION as; - a defect in workmanship and materials that results in the failure of the load-bearing part of the homes structure, or
- Any defect in workmanship or materials that adversely affects your use of the building as a home.
Specifications and Terms subject to change, E. & O.E., (May 25, 2021)

All matters set out in this Schedule "B" are subject to the provisions of Schedule "A". In addition, the purchaser acknowledges that the Vendor's model homes have been decorated for public display purposes and may contain certain features, upgrade finishes and augmented services which may not be included in the basic model type. All electrical services included in the basic model type are illustrated on architectural plans available at the Vendor's sales office. Most additional features on display in the model homes are available as extras. Front elevations are modified where alternate floor plans selected. The Purchaser is notified due to siting, grading, and paving conditions, roof lines may vary due to structural roof framing conditions, and may not be exactly as shown. Due to conditions, risers may be necessary at the front entry. Purchaser is notified that all lots have Architectural Control applied to them and that exterior architectural features may be added or altered at the Vendor's discretion to comply with Architectural Control Guidelines.
